

WELCOME

KONECT62

Thank you for attending our event providing an update on the Konect62 project at the former Kellingley Colliery in Knottingley.

As you will be aware, our investment into this 136-acre employment site is well underway, and we are on track to create one of the best-connected, most sustainable manufacturing and distribution sites in the UK. This project not only builds on the rich legacy of Kellingley Colliery as an important historic employer, but also promises to revitalise the area for the benefit of the local community.

We are in the process of preparing for the second phase of the project, and before we apply for planning permission from North Yorkshire Council, we want to understand the views of the local community. Members of the project team are on hand to talk you through the plans and answer any questions you may have.

We hope you find the information useful and invite you to let us know your views by completing our feedback form. We are interested in hearing your views, in particular if there are any community projects or initiatives that the proposals may be able to facilitate. All feedback will be taken into consideration by the project team prior to the submission of a planning application.
